

Legal Analytics® Federal+ Package

Lex Machina's award-winning Legal Analytics platform helps you win! Win your case, win your negotiation, and win new business with the support of data-driven insights. Over three-quarters of Am Law 100 firms, as well as firms of all sizes and many of the world's largest corporations, use our Legal Analytics to gain previously unavailable strategic insights.

Now, Lex Machina brings you our new Federal+ Package, which gives you access to the company's entire data set for federal court litigation. With over 2.8 million civil cases in federal district court, you can explore all commercially relevant federal district court cases without hitting roadblocks or paywalls.

All Available Practice Areas in Federal District Court

Lex Machina's Federal+ Package includes all federal cases in our system. Users have access to over 2.8 million civil court cases including enhanced, in-depth analytics for 16 federal practice areas. Find any federal district court case and use it as a starting point to discover key analytics, including information about judges, law firms, attorneys, or parties.

Features include:

- Millions of already-downloaded documents in federal district court cases
- Unlimited users within your organization
- Access to all practice areas in federal cases added in the future means predictable budgeting, future modules for the current price, and no mid-contract add-ons

The Federal+ Package provides you with access to the most comprehensive set of federal litigation analytics we've ever offered.

Comprehensive Federal Coverage

With Lex Machina's Federal+ Package, users will have access to comprehensive federal district court coverage for civil cases. Benefits of the comprehensive coverage include:

- Analyze the complete set of federal district court cases for any judge, law firm, attorney, or party
- Find any federal district court case and access up-to-date docket activity
- Conduct keyword searches across all federal district court dockets and downloaded documents
- View motion grant/denial rates for a judge's entire docket
- Search across all federal district court cases or narrow down to review practice-area specific insights

Use Cases

Lex Machina's Federal+ Package helps you answer questions such as:

- How many of Apple's federal court cases have a Summary Judgment order?
- What is the median time to trial for contracts cases in the Southern District of New York?
- How many cases in the Central District of California mention "RICO"?
- What parties has Greenberg Traurig represented and how often?
- How do I get to the case docket for 3:15-cv-03747?

Bottom Line

Lex Machina's Federal+ Package is a simple, straightforward package that grants maximum access to all of the Legal Analytics Lex Machina has to offer for federal district court litigation, now and in the future.
