

Legal Analytics® State+ Package

Lex Machina's award-winning Legal Analytics platform helps you win! Win your case, win your negotiation, and win new business with the support of data-driven insights. Over three-quarters of Am Law 100 firms, as well as firms of all sizes and many of the world's largest corporations, use our Legal Analytics to gain previously unavailable strategic insights.

Now, Lex Machina brings you our new State+ Package, which gives you access to the company's entire data set for all available state court litigation modules. With approximately 1.5 million cases in our rapidly expanding state court coverage, you can explore all of our state court cases without hitting roadblocks or paywalls.

All Available State Court Venues

Lex Machina's State+ Package includes all state court civil cases in our system, plus access to all state court venues added in the future. Currently encompassing approximately 1.5 million cases in ten state courts, Lex Machina is quickly expanding its state court coverage.

Features include:

- Millions of already-downloaded documents in state court cases
- Unlimited users within your organization
- Access to all current and future state court venues means predictable budgeting, future modules for the current price, and no mid-contract add-ons

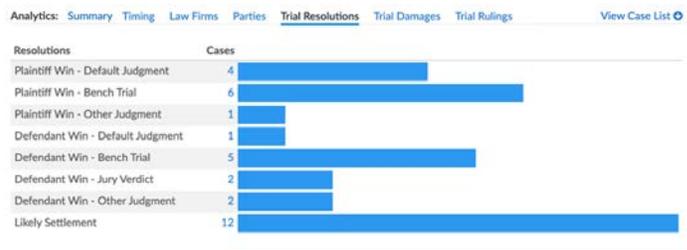

The State+ Package provides you with access to the most comprehensive set of state court analytics we've ever offered.

In-Depth State Analytics

Because there is no unified system for state courts analogous to PACER in federal courts, Lex Machina adds its new state court modules on a court-by-court basis, with an emphasis on strict data quality and integrity.

Features include:

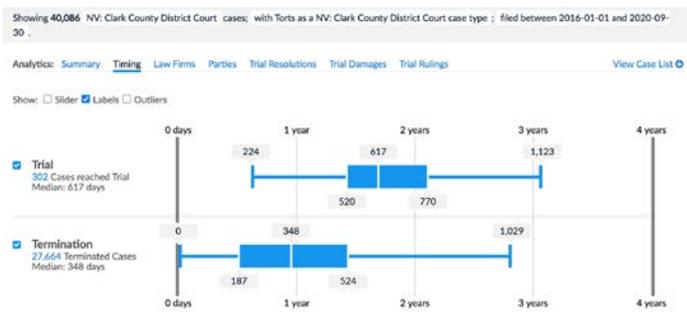

- Searching by judge, law firm, attorney name, or party
- Timing analytics, trial resolutions, trial damages, and trial rulings
- Keyword searching within docket entry text and downloaded documents
- Viewing analytics across all state courts or in one particular court
- Court-specific filters, such as case types and case tags

Use Cases

Lex Machina's State+ Package helps you answer questions such as:

- What proportion of tort cases were resolved by jury trial in Clark County District Court? What were the damages in those cases?
- What is the median time to trial in Los Angeles County Superior Court?
- How many cases before your judge mentioned the keyword "negligence"?
- Who is the most active defendant's law firm in San Bernardino Superior Court, and what parties have they represented?

Bottom Line

Lex Machina's State+ Package is a simple, straightforward package that grants maximum access to all of the Legal Analytics Lex Machina has to offer for state court litigation, now and in the future.
